

## COMMITTEE ON OPERATING RULES FOR INFORMATION EXCHANGE

### **CAQH CORE Attachments Webinar Series** **Part 1: Laying the Foundation for Electronic Healthcare Attachments** Thursday, March 2, 2017 | 2:00 - 3:00 pm ET

**Register for this event [HERE](#) for free**

There is a desire by the healthcare industry for comprehensive and foundational knowledge on the use and successful adoption of uniform electronic Attachments. Having "additional documentation" sent electronically can fundamentally transform daily processes and workflows that not only meet diverse business needs but also bridge the gap between clinical and administrative data usage. Doing so based on industry standards reduces one-off implementation and encourages adoption.

CAQH CORE has partnered with leading clinical documentation expert, Lantana Consulting Group, to develop a webinar series on this critical topic that will address the industry's need for knowledge and thoughtful implementation guidance for Attachments.

This first webinar will:

- Present business drivers and Attachment use cases, including claims and prior authorization
- Offer an overview of standards-based electronic Attachments and their relationship to standards used in industry today
- Provide an update on related CAQH CORE initiatives and federal policy developments
- Discuss existing Attachment challenges and opportunities
- Encourage audience-members to ask questions and provide input on future webinar topics

Future webinars will focus on Attachments business case and ROI. For more information about the rest of the Attachments webinar series, go to the CAQH CORE [Events](#) page.

#### **About CAQH CORE**

CAQH CORE is a national multi-stakeholder initiative that streamlines electronic healthcare administrative data exchange and improves health plan-provider interoperability through an integrated model of operating rule development, adoption and maintenance. CAQH CORE has been designated by the Secretary of the Department of Health and Human Services (HHS) as the author of operating rules for HIPAA administrative healthcare transactions. To learn more about CAQH CORE, visit [www.caqh.org](http://www.caqh.org).

#### **About Lantana**

**Lantana's mission** is to improve healthcare through health information technology. We lead the continual development and improvement of the industry through our consulting and volunteer practice. For more information, visit our website at [www.lantanagroup.com](http://www.lantanagroup.com) or call (714) 232-8679.
